(b): Yes, Madam. India does face tariff and non–tariff barriers from certain BRICS nations. India takes up these concerns with BRICS countries through the appropriate bilateral and plurilateral mechanisms.

(c) to (e): The intra-BRICS trade (imports and exports) as a percentage of global trade of BRICS nations has been an average of 12.28% over 2013 to 2015.

The BRICS Contact Group on Economic and Trade Issues (CGETI) is the forum which deals with trade issues between BRICS countries. The 6<sup>th</sup> BRICS Trade Ministers meeting was held on 13<sup>th</sup> October, 2016 in New Delhi. The Ministers adopted a Communique along with six documents namely (i) BRICS MSME Cooperation Framework, (ii) Framework for Cooperation on Trade in Services, (iii) Terms of Reference of IPR (intellectual property rights) Cooperation Mechanism of BRICS Countries (iv) Framework for BRICS Single Window Cooperation (v) Terms of Reference of Trade Promotion Working Group and (vi) BRICS Framework for Standardisation. The co-operation in these areas is expected to enhance participation of BRICS countries in world trade which would inter-alia include measures for facilitating integration of MSMEs into the BRICS value chains, co-ordination on trade promotion activities both within and outside the region, cooperation on IPR issues and participation in standardisation activities.

SABHA STARRED QUESTION NO. 376 FOR ANSWER ON 12<sup>th</sup> DECEMBER, 2016  
REGARDING “INTEGRATED COFFEE DEVELOPMENT PROJECT”**

- (a) Integrated Coffee Development Project (ICDP) was envisaged to contribute towards improvement in the production, productivity and quality of coffee produced in India, to promote export of coffee in the international market and to increase domestic consumption. The salient features of ICDP are :
- (i) To extend all round support to the coffee growing sector in terms of development of improved varieties/production technologies.
  - (ii) Effective transfer of technology from lab to land through innovative extension approaches.
  - (iii) Capacity Building of stakeholders to improve their skill and competence in coffee production, processing, quality improvement, marketing etc.
  - (iv) To provide need based incentives at threshold levels to encourage new investments that can contribute towards improvement of production, productivity and quality of coffee produced in the country.
  - (v) Promotion of Indian coffee in the export and domestic market

The implementation guidelines of the scheme were approved on 18.12.2014 with a total outlay of Rs.950 Crores. The funds released for the ICDP project are as under:

(Rs. In crores)

Year	Funds released
2014-15	95.51
2015-16	95.80
2016-17 (up to November 2016)	71.05

(b) The fund allocation under any project is subject to availability of budget. The details of subsidy released under the ICDP are as under.

(Rs. In Crores)

Year	Total
2014-15	47.25
2015-16	44.80
2016-17 (up to November 2016)	39.55

(c) Yes, Madam. The coffee growers are being given compensation for crop losses due to erratic rainfall under Rainfall Insurance Scheme for Coffee (RISC). The compensation disbursed under the scheme during the last three years, State-wise is as under:

State	Compensation disbursed under RISC (Amount Rs. lakhs)		
	2013-14	2014-15	2015-16

**STATEMENT REFERRED TO IN REPLY TO PARTS (a) TO (d) OF LOK  
SABHA STARRED QUESTION NO. 378 FOR ANSWER ON 12<sup>th</sup> DECEMBER, 2016  
REGARDING “TRADE FACILITATION AGREEMENT IN SERVICES”**

(a) Yes, Madam.

(b) India tabled the “Concept Note for an initiative on Trade Facilitation in Services” dated 27 September 2016 at the WTO (copy enclosed as Annexure -I). The objective behind India’s proposal for an Agreement on Trade Facilitation in Services (TFS) is to initiate discussions at the WTO on how to comprehensively address the numerous border and behind-the-border barriers, across all modes of supply, which are impediments to the realization of the full potential of services trade. Like the Trade Facilitation Agreement (“TFA”), adopted by WTO Members in 2014 to facilitate trade in goods, a well-structured TFS will significantly enhance the potential for trade in services for all WTO Members. India has proposed that the TFS Agreement could be based on the TFA in goods, with suitable modification and adaptation to the services context, as required.

(c) Yes, Madam.

(d) India’s proposal was discussed at the WTO on 6<sup>th</sup> October 2016. Many WTO Members expressed interest in India’s proposal as a positive move to revive Services negotiations at the WTO. Some of the key issues raised by members related to scope and coverage of India’s proposal, mandate for a TFS and provisions related to Special and Differential Treatment. Some members sought greater detail about India’s proposal.

The response of the Government was that India’s proposal for an Agreement on TFS is to comprehensively address the numerous border and behind-the-border barriers impeding trade in services across all modes of supply. India has taken the position that the mandate for a TFS arises from the various provisions of the General Agreement on Trade in Services (GATS). India also intends to propose appropriate Special and Differential Treatment and provisions for technical assistance and capacity building for developing countries and Least Developed Countries (LDCs) in the proposed TFS Agreement.

Subsequently, India tabled a follow-up proposal dated 14<sup>th</sup> November 2016 on “Possible Elements of a Trade Facilitation in Services Agreement” (S/WPDR/W/57) at the WTO, which outlines the possible elements of the TFS Agreement, as conceived by India, in a more detailed manner (copy enclosed as Annexure- II).

Given the growing importance of Trade in Services globally, India is hopeful of constructive engagement with Members regarding the contours of the proposed TFS Agreement at the WTO.

**COMMUNICATION FROM INDIA**

**CONCEPT NOTE FOR AN INITIATIVE ON TRADE FACILITATION IN SERVICES**

The following communication from the delegation of India, dated 23 September 2016, is being circulated to the Members of the Working Party on Domestic Regulation.

---

**1 BACKGROUND AND MOTIVATION**

1.1. Services occupy a significant and growing share of domestic and international transactions. However, trade flows in services remain subject to numerous border and behind-the-border barriers as well as procedural bottlenecks, which are impediments to the realization of the full potential of services trade. These impediments particularly limit the benefits of trade in services especially for small and medium enterprises and small exporters worldwide.

1.2. The Trade Facilitation Agreement ("TFA"), adopted by WTO Members in 2014, was a significant milestone in relation to trade in goods. Its overall purpose is to expedite the movement, release and clearance of goods as well as co-operation on customs compliance issues. Like the TFA, there is need for a counterpart agreement in services, an Agreement on Trade Facilitation in Services ("TFS Agreement"), which can result in reduction of transaction costs associated with unnecessary regulatory and administrative burden on trade in services. The TFS Agreement will address the key issues that are pertinent to facilitating trade in services, such as transparency, streamlining procedures, and eliminating bottlenecks.

1.3. The scope of the proposed TFS Agreement would encompass measures by Members affecting trade in services across all modes of supply.

1.4. Importantly, the TFS Agreement, as in the case of the TFA, will also contain provisions for special and differential treatment for developing countries and LDCs and address related issues of technical assistance and support for capacity building.

**2 ILLUSTRATIVE ELEMENTS OF A TFS AGREEMENT**

2.1. The TFS Agreement could be based on the TFA in goods, with suitable modification and adaptation to the services context, as required.

2.2. Some of the issues would be cross-cutting issues relevant for all modes of supply of services, and others would be specific to each mode of supply.

2.3. An illustrative list of such elements is provided below:

## 2.1 CROSS-CUTTING ISSUES

- Publication and availability of information, including automation and international electronic exchange of trade data.
- Transparency in application of all measures of general application affecting trade in services.
- Ensuring administration of measures affecting trade in services in a reasonable, objective and impartial manner.
- Consultations and cooperation among relevant authorities.
- Opportunities to comment before entry into force of measures affecting trade in services.
- Procedures and timelines for consideration of applications from service suppliers, as well as for appeal and review.
- Disciplines on taxes, fees, charges and other levies on supply of services.
- Special and Differential Treatment for developing country Members and LDCs.
- Institutional arrangements.

## 2.2 MODE-SPECIFIC ISSUES

### Mode 1:

- Facilitation of free flow of data across borders for ensuring meaningful supply of Mode 1 services.

### Mode 2:

- Facilitation of supply of Mode 2 services, including through cross border insurance portability for availing of medical or tourist related services in a foreign country.
- Endeavour to streamline temporary entry formalities, such as visa processing fees, procedures and timelines for consumers seeking entry into another country to avail of services (such as medical services, education services, tourism, etc.).

### Mode 3:

- Facilitation of supply of Mode 3 services, including through measures such as single window clearance for setting up commercial presence.
- Disciplines on charges applicable on Mode 3 service suppliers, in order to ensure that these do not unfairly disadvantage foreign service suppliers.

### Mode 4:

- Facilitation of supply of Mode 4 services through simplification of procedures for temporary entry and stay, and clarity in respect of work permits and visas as relevant for the categories of the Mode 4 commitments.

- Disciplines on measures relating to taxation, fees/charges, discriminatory salary requirements, social security contributions in relation to temporary entry, etc. in order to ensure that these do not unfairly disadvantage foreign service suppliers.

### **3 CONCLUDING COMMENTS**

India firmly believes that like the TFA, a well-structured TFS will significantly enhance the potential for trade in services for all Members. This concept requires careful deliberation in order to enable the development of a framework that can effectively address the main concerns of all Members. India looks forward to comments and suggestions from all Members on this critical concept and to developing the elements for the same.

## **COMMUNICATION FROM INDIA**

### **POSSIBLE ELEMENTS OF A TRADE FACILITATION IN SERVICES AGREEMENT**

The following communication from the delegation of India, dated 14 November 2016, is being circulated to the Members of the Working Party on Domestic Regulation.

---

#### **1 INTRODUCTION**

1.1. India tabled its proposal on the 'Concept Note for an Initiative on Trade Facilitation in Services' (S/WPDR/W/55) at the WPDR meeting held on 6 October 2016, with the objective to briefly outline the concept of a TFS Agreement. As mentioned in that paper, while services occupy a significant and growing share of domestic and international transactions, trade flows in services still remain subject to numerous border and behind-the-border barriers as well as procedural bottlenecks. These impediments particularly limit the benefits of trade in services for small and medium enterprises as well as small exporters worldwide. The TFS Agreement will address the key issues that are pertinent to facilitating trade in services, such as transparency, streamlining procedures, and eliminating bottlenecks. In brief, the TFS Agreement is aimed at ensuring that the market access arising out of existing as well as future liberalization commitments are effective and meaningful.

1.2. We were very encouraged by the interest generated amongst the membership on the concept of a TFS Agreement. India would like to thank the Members for the engagement and interest shown in the proposal. Many Members also desired that India present a more detailed proposal which encapsulates India's idea on furthering the initiative on trade facilitation in services.

1.3. India hereby presents this Elements Paper which outlines the possible elements of the TFS Agreement, as conceived by India, in a more detailed manner. We look forward to participating in constructive discussion and engagement with Members regarding the contours of the proposed TFS Agreement.

1.4. The issues which India proposes to cover in the TFS Agreement are inspired from the Trade Facilitation Agreement, the ongoing DR discussions (TN/S/36 dated 21 April 2011 and JOB/SERV/239/Rev.1 dated 31 October 2016), provisions of the GATS, several bilateral and regional FTAs as well as experience and feedback from service suppliers. As mentioned in the Concept Note by India (S/WPDR/W/55), some of the elements could be cross-cutting issues which are relevant for all modes of supply of services, and others could be specific to a mode of supply.

#### **2 ELEMENTS OF THE TFS AGREEMENT: THE PROVISIONS OF THE TFS AGREEMENT COULD ENCOMPASS THE FOLLOWING ELEMENTS:**

2.1. SCOPE AND DEFINITIONS: In our initial assessment, the focus of the TFS Agreement will be with regard to measures affecting trade in services in sectors where specific commitments are undertaken. However, some provisions, such as transparency, would apply to all measures affecting trade in services, following the approach in the GATS. The definitions will be largely based on the GATS. In addition, we would need to define certain terms that are not covered by the GATS.

2.2 PUBLICATION AND AVAILABILITY OF INFORMATION: This provision can be based on GATS Article III on Transparency. It may encompass obligations such as publishing all measures of general application relating to supply of a service in an easily accessible manner and provide opportunity to comment before entry into force so as to enable governments, service suppliers and other interested parties to become acquainted with them. Another principle that may be considered is establishing and maintaining an appropriate mechanism for responding to enquiries regarding measures affecting trade in services.

2.3 ADMINISTRATION OF MEASURES: The provision could deal with obligations that lead to simple and transparent administration of measures affecting trade in services. This provision could comprise of aspects such as single window facility for applications, specific timeframes for applications, acceptance of electronic applications and authenticated copies of documents, procedure for appeal and review, including procedures for information and verification requests as well as an expedited fast-track procedure for acceptance of applications. We note that this provision could draw on the elements specified in the communication from Australia and others on '*Domestic Regulation – Administration of Measures*', dated 31 October 2016 (JOB/SERV/239/Rev.1). The elements of this provision would be particularly relevant for supply of services through all modes of supply, in particular Modes 3 and 4.

2.4 FEES AND CHARGES: Fees and charges relating to the supply of services sometimes themselves become barriers for the supply of a service. The TFS text could address this through provisions similar to the DR text, which seek to ensure that fees and charges applied are reasonable, transparent, commensurate with the costs incurred by the competent authorities, and do not in themselves restrict or impair the supply of the relevant service. The elements of this provision would be particularly relevant for supply of services through all modes of supply.

2.5 ADMINISTRATION OF ECONOMIC NEEDS TESTS: Members have a legitimate right to schedule economic needs tests (ENTs) in their commitments. However, lack of information on criteria for applicability of such ENTs, often becomes a barrier for supply of services. It is extremely important to provide information with regard to the criteria on which ENTs are based, and details of requirements, procedures and guidelines for administration of such ENTs as per Members' Schedule of specific commitments in order to enable effective market access. This provision could accordingly include obligations that require Members to ensure that ENTs, where applied, do not impose undue costs on the service supplier, and do not result in undue delays and uncertainty for service suppliers. In this regard, Members may like to consider aspects that were highlighted in a recent communication by Turkey on '*Economic Needs Test*', dated 29 February 2016 (JOB/SERV/224). The elements of this provision would be particularly relevant for supply of services through Modes 3 and 4.

2.6 FACILITATING CROSS-BORDER FLOW OF INFORMATION: Cross-border flow of services under Mode 1 is in essence rooted in the cross-border flow of information that can be processed by service suppliers. This is particularly relevant in today's internet driven and highly digitized world. The concept of free cross-border flow of information is, therefore, very important for ensuring meaningful supply of services through Mode 1. While a Member may adopt or maintain measures in accordance with its respective laws and regulations to protect such data / information, it should not impose barriers for flow of such information merely because the measures adopted by another Member for the protection of such information/data, are different from its own. The focus of this provision would be to address issues relating to this aspect.

2.7 FACILITATING CONSUMPTION ABROAD: An important service relevant to consumption abroad is health services (also commonly referred to these days as 'medical tourism'). Lack of insurance coverage for availing of medical services in a foreign country, however, acts as an impediment for the growth of services under this mode. Members could also consider a provision relating to the expedited processing of immigration formalities by the host territory in respect of foreign consumers who are seeking medical services or such other urgent services. Such a provision could be helpful for facilitating consumption abroad of health services.

2.8 PROVISIONS FACILITATING MOVEMENT OF NATURAL PERSONS: As has been explained in the Background Note by the Secretariat on Movement of Natural Persons dated 15 September 2009 (S/C/W/301), Mode 4 has not been able to contribute significantly to services trade owing to lack of a number of facilitative elements. In this regard, the TFS Agreement could address some of the critical bottlenecks impacting Mode 4 delivery of services. This provision could comprise of facilitative provisions pertaining to the meaningful supply of Mode 4 services as well as include an additional clarification and publication requirement that allows for providing and making publicly available, explanatory material on all relevant immigration formalities, in particular for the categories of natural persons specifically committed by Members. Other facilitative elements for temporary entry could include multiple entry permits for natural persons committed in a Member's schedule, and exemption of committed categories of natural persons from payment of additional costs and charges, including social security payments, etc. Members could also consider that where payments such as social security cannot be exempted, then can consideration be given for portability of such benefits? The provision may also address adequate opportunities and mechanisms especially for developing country Members to accede to recognition agreements pertaining to authorization, licensing and certification of service suppliers under Article VII.1.

2.9 COOPERATION AMONG COMPETENT AUTHORITIES: Cooperation among competent authorities of Members is very important for facilitating trade in services. The areas for cooperation under this provision could include exchange of information on procedural requirements and associated formalities and documentation. Other areas of cooperation could address the sharing of experiences regarding implementation, best practices for collection and compilation of data relating to trade in services, exchange of statistics on trade as well as technical guidance or assistance and support for capacity building to small and medium enterprises.

2.10 SPECIAL AND DIFFERENTIAL TREATMENT: This provision may comprise of special provisions for developing countries and LDCs pertaining to the entry into force of this Agreement due to their special economic and developmental situation as well as trade and financial needs. While LDCs shall not be required to implement any obligations, they would be encouraged to do so.

2.11 TECHNICAL ASSISTANCE: This provision could address technical assistance that may be provided to developing countries and LDCs in order to advance and strengthen their institutional and regulatory capacities. The provision could entail obligations that help build the supply capacity of developing countries and LDCs.

2.12 INSTITUTIONAL ARRANGEMENTS: The TFS Agreement could include institutional arrangements such as the establishment of a Committee on Trade Facilitation in Services at the WTO. Additionally, obligations under the provision could encompass the establishment of a National Committee on Trade Facilitation in Services in each Member State in order to facilitate implementation of the provisions of this Agreement.

### 3 CONCLUSION

3.1 India appreciates Members earlier engagement and discussion on the Concept Note and looks forward to views and suggestions on the Elements Paper.

REGARDING “IMPACT OF DEMONETISATION ON TEA INDUSTRY”**

(a) to (c): Though no specific study has been conducted by the Government to assess the impact of demonetisation on the tea industry, an arrangement has been made by the State Government of Assam wherein directives have been issued to the District Administration to get wage amount deposited by estate owners in the account of District Administration and in turn concerned District Administration hand over cash to the garden management for wage payment to workers. Similar arrangements have also been made by the State Governments of West Bengal and Kerala for withdrawal of money through treasury for the payment of wages to the workers. In Tamil Nadu, arrangements are being made for opening of bank accounts for all workers and transfer of wages to such bank accounts. The banks concerned will deliver the wage in cash through their ‘banking correspondents’.

Tea Board is also coordinating with the State Governments of the tea growing States for facilitating smooth payment of wages to Tea Garden Workers. It has also requested the State Governments and the Tea Producers Associations for opening of new accounts under the Prime Minister Jan Dhan Yojana for all individual workers/employees engaged in tea plantation by end of December, 2016. Reserve Bank of India has also directed the banks to open accounts for Tea/Coffee and other plantations workers, in a camp mode, with concentrated payment locations.

**IMPACT OF CLIMATE CHANGE ON RUBBER PRODUCTION**

**4148. SHRIMATI VASANTHI M.:**

Will the Minister of **COMMERCE & INDUSTRY** (वाणिज्य एवं उद्योग मंत्री ) be pleased to state:

- (a) whether the rubber production in the country has been affected by climate change;
- (b) if so, the details thereof along with the steps taken by the Government to educate the farmers to overcome the situation;
- (c) whether the Government has any plan to motivate the research in rubber cultivation to increase the production; and
- (d) if so, the details thereof?

**ANSWER**

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY  
(INDEPENDENT CHARGE)  
(SMT. NIRMALA SITHARAMAN)

(a) & (b) Studies conducted by Rubber Board have shown that rising temperatures and uncertainty in the arrival and withdrawal of monsoon rains have affected the yields and production of Natural Rubber. Rubber Board has taken steps towards educating rubber growers about the protective measures which inter alia includes shading young plants during peak summer season, mulching the base of young rubber plants, taking up soil and water conservation measures, tapping of trees before sunrise etc.

(c) & (d) In order to increase production of Natural Rubber, Rubber Research Institute of India (RRII) under the Rubber Board implements a major research programme for developing location-specific, climate resilient and high yielding clones. Some of the clones developed by RRII have highest yield potential in the world.

(a) & (b): Government of India has taken up the visa as well as social security issues with the United States (US) both bilaterally and in other forums from time to time to address the concerns arising out of the impact of such measures on the domestic industry particularly the Indian Information Technology (IT) industry.

Visa related issues of IT industry have been raised with the US Government at the Ministerial dialogues during the Strategic and Commercial Dialogue in August 2016 and the Trade Policy Forum in October 2016. Also, the matter on US visa fee hike has been raised by India at the World Trade Organisation (WTO), Geneva. India had consultations with the United States on 11-12 May 2016 at the WTO, Geneva under WTO Dispute Settlement Mechanism. India had raised claims on US measures relating to:

- i. Fees for L-1 and H-1B visas;
- ii. Numerical commitment for H-1B visas.

India is also pursuing for bilateral Totalization Agreement with the US. In the Trade Policy Forum held in October, 2016, both the countries acknowledged the ongoing discussions on

totalisation and resolved to continue their engagement on the elements required in both countries in order to pursue a bilateral Totalisation Agreement.

(c) &(d): During the Trade Policy Forum held in October, 2106, India and the US decided to continue their engagement on visa issues and reiterated their resolve to facilitate the movement of professionals. India would continue the efforts with the new Government of the US under the leadership of their new President Mr. Donald Trump also.

EXPORT AND IMPORT OF APPLES

4193. SHRI P. KUMAR:

Will the Minister of **COMMERCE & INDUSTRY** (वाणिज्य एवं उद्योग मंत्री ) be pleased to state:

- the quantum of apple exported and imported during each of the last three years and the current year, year-wise and country-wise;
- whether the production of apple has decreased during the said period;
- if so, the details thereof and the reasons therefor; and
- the steps taken by the Government to increase the export and production of apple?

ANSWER

वाणिज्य एवं उद्योग राज्य मंत्री (श्रीमती निर्मला सीतारमण) (स्वतंत्र प्रभार)

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY  
(INDEPENDENT CHARGE)  
(SMT. NIRMALA SITHARAMAN)

- The details of apples exported and imported during each of the last three years and the current year, year-wise and country-wise, are at **Annexure-I**.
- As per the Annual Estimate for 2013-14, 2014-15 and latest Advance Estimate for 2015-16, the total apple production in the country has increased by 30.4 % in 2013-14 over 2012-13 and by 34.58 % in 2015-16 over 2014-15. However, the production of apple decreased by 14.57 % in 2014-15 over 2013-14. This was due to excessive floods in Jammu & Kashmir during 2014-15. The production of apple in the last three years and the current year is as under:

Year	2012-13	2013-14	2014-15	2015-16 (3 <sup>rd</sup> Estimate)
<b>Production ('000 tons)</b>	1915.38	2497.68	2133.84	2871.80

Source: D/o Agriculture, Cooperation & Farmers Welfare.

- Does not arise in view of (b) above.
- Mission for Integrated Development of Horticulture (MIDH), a Centrally Sponsored Scheme, is being implemented during XII Plan. The Mission envisages production and productivity improvement of horticulture crops, including apple, through various interventions. Activities such as production of planting material, vegetable seed production, coverage of area with improved cultivars, rejuvenation of senile orchards, protected cultivation, creation of water resources, adoption of Integrated Pest Management (IPM), Integrated Nutrient Management (INM), organic farming, including insitu generation of organic inputs are taken up for development of fruits and vegetables.

Capacity buildings of farmers and technicians are also provided for adopting improved technologies. Scheme also envisages creation of infrastructure for post harvest management (PHM) and marketing for better price realization of produce.

The Agricultural & Processed Food Export Development Authority (APEDA), an autonomous organisation under the administrative control of Department of Commerce, provides financial assistance to exporters of horticulture produce, including apples, under various components of its plan scheme viz. Infrastructure Development, Market Promotion, Quality Development and Transport Assistance. Export of apples is also eligible for reward @ 5% under the Merchandise Exports from India scheme (MEIS).

(a) to (d): India's Ongoing WTO dispute cases are indicated below:

Dispute cases with India as 'Complainant' are:

- (i) DS436 -India challenged the exorbitant anti-subsidy duty imposed by the United States (US) on certain steel products originating from India; WTO Ruling was substantially in favour of India;
- (ii) DS503 -India challenged against US Measures affecting Non-Immigrant Service Suppliers from India; consultations were held with the US during 11-12 May 2016.
- (iii) DS-510 -India challenged against the WTO inconsistent Renewable Energy Programmes of the US at their sub-federal level; consultations were held with the US during 16-17 November 2016.

Dispute cases with India as 'Respondant' are:

- (i) DS430 -The US challenged the ban on imports of certain agricultural products in particular the poultry and poultry products originating from a country which declared occurrence of low-high pathogenic Avian Influenza strains; India's measure has been ruled as WTO inconsistent in this case.
- (ii) DS456 –The US challenged Domestic Content Requirement in certain programs under Jawaharlal Nehru National Solar Mission (JNNSM) of India; DSB Ruled that India's measures were inconsistent with under WTO rules.
- (iii) DS498 – The Chinese Taipei challenged India's Anti Dumping duty on USB flash drives originating from Chinese Taipei; consultations were held with Chinese Taipei in India in November 2016.

Pursuant to the DSB Ruling in the WTO dispute DS456, establishing the Domestic Content requirement on private developers as inconsistent with the WTO obligations, India has to bring its measures into conformity within the Reasonable Period of Time. GOI has been extending other WTO compliant support to domestic industry.

(a): Yes, Madam. The Government has introduced the Service Exports from India Scheme (SEIS) w.e.f. 01.04.2015 under the Foreign Trade Policy (FTP), 2015-20 replacing the earlier scheme 'Served from India Scheme' under the FTP, 2009-15. Under SEIS, the service providers of notified services are incentivized in the form of Duty Credit Scrips at the rate of 3 or 5% on their net foreign exchange earnings. These SEIS scrips are transferrable and can also be used for payment of a number of Central duties/taxes including the basic customs duty.

(b) & (c): Yes, Madam. Apart from services, there is also a scheme for incentivizing export of merchandise/goods. The Merchandise Exports from India Scheme (MEIS) in the Foreign Trade Policy (FTP) 2015-20 operating since April 1, 2015 rewards export of merchandise which are produced/manufactured in India through Duty Credit Scrips which are transferable and can be used to pay Central duties/taxes including customs duties.

(d) & (e): SEIS and MEIS schemes are designed to make our exports (both services & goods) globally competitive.

- (a) Yes, Madam. Australia has granted market access for export of mangoes from the pest free areas of Uttar Pradesh with Vapour Heat Treatment (VHT) as post-harvest quarantine mitigation measure. India has requested Australia for allowing mangoes from other states and also for the alternative mitigation measures. South Korea has also granted market access for export of Indian mangoes in the month of June 2016. South Africa is yet to grant market access for Indian mangoes.
- (b) Yes, Madam. For export of grapes, the finalization of import risk analysis is awaited from the USA. In case of Japan and Vietnam, the import risk analysis with post-harvest mitigation measures is yet to be finalized by them. The matter is being pursued through the Indian Embassies in the respective countries. India has already submitted priority list for market access for fruits and vegetables to the Chinese General Administration of Quality Supervision, Inspection and Quarantine (AQSIQ), as per their request. The matter is being pursued. Based on field verification carried out during September 2016, AQSIQ China has approved 14 rice production enterprises for export of rice from India to China
- (c) Yes, Madam.
- (d) India's export of Agricultural & Allied Products, during the period April 2015 - February 2016, was Rs.1,45,315.73 crore as compared to Rs.1,68,918.94 crore over the same period in the previous financial year, showing a decline of 13.97%. The primary reasons for decline are: low commodity prices in the international market; shrinking of global demand; high domestic prices, as compared to the international prices, which has made our exports uncompetitive; unfavourable currency rate movements as compared to the competing countries etc.

(a) to (c): In the WTO dispute DS456 filed by the United States against India, India appealed before the WTO Appellate Body, against the Panel findings and rulings. Based on the recommendations of the Appellate Body, the WTO Dispute Settlement Body (DSB) ruled that the Domestic Content Requirement (DCR) under Phase I and Batch I & Batch II of Phase II of India's Jawaharlal Nehru National Solar Mission (JNNSM) programs is inconsistent with WTO Agreement as it discriminates between the products manufactured domestically and the imported products.

Government of India has provided a number of schemes for the purpose of extending support to the domestic manufacturers. Some of them are related to extension of concessional excise and custom duties, provision of capital subsidies for setting up of manufacturing units for solar cells and modules and the entire value chain under Modified Special Incentive Package Scheme (M-SIPS) programme etc.

(a) to (c): Realising the impact of imported second hand machinery, the Government has not been allowing imports of second hand capital goods under the Export Promotion Capital Goods (EPCG) Scheme since 18.4.2013.

Further, the National Capital Goods Policy, 2016 also recognizes the impact of imported second hand capital goods in some sub-sectors of the capital goods Industry and accordingly, extension of subsidy for import of second hand textile machinery has been stopped in the Revised Technology Upgradation Fund Scheme (R-TUFS) of the Ministry of Textiles. Also a scheme is presently in operation in the Department of Heavy Industries for enhancement of competitiveness in the Indian capital goods sector which aims, inter alia, to increase technology depth of the Indian capital goods sector. Several proposals have been approved under the component “Centre of Excellence for Technology Development” especially in the field of Machine Tools Industry and Textile Machinery. The technologies developed under these projects are expected to result in substitution of imports.

**(SMT. NIRMALA SITHARAMAN)**

(a) & (b): Government of India is negotiating a broad-based Bilateral Trade and Investment Agreement with European Union. A Free Trade Agreement (FTA) with Israel is also under negotiation. FTA which was being negotiated with the Gulf Cooperation Council (GCC) (which comprises Bahrain, Kuwait, Oman, Qatar, Saudi Arabia and United Arab Emirates), has presently been deferred since GCC States are reviewing the issue of negotiations. As regards FTA between India and Eurasian Economic Union (EaEU) (comprising of 5 countries namely Russia, Belarus, Kazakhstan, Armenia and Kyrgyzstan), India-Eurasia Economic Union have finalised the report of Joint Feasibility Study Group (JFSG) to prepare ground for the FTA negotiations in future.

Details of the commodities involved in the Agreements are subject to negotiations and mutual acceptance. In respect of ongoing negotiations, disclosure before finalisation of the Agreement may adversely affect India's position in the negotiations.

(c) & (d): Before entering into negotiations with its trading partners, studies are undertaken internally, as well as through the Joint Study Group (JSG) to study the feasibility of the proposed FTAs, including their impact on the domestic stakeholders including the Apex Chambers of Commerce and Industry, Industry Associations as well as the Administrative Ministries and Departments.

(a) & (b): Currently, four border haats are operational, along the India-Bangladesh border. Two border haats are located in Meghalaya at Kalaichar and Balat and two are located in Tripura at Srinagar and Kamalasangar.

The trade at border haats is permitted to be carried out in Indian Rupees/Bangladesh Taka and on barter basis, and data of such trade is maintained by the Haat Management Committee of the respective border haat. As per data furnished by the concerned State Governments, cash trade equivalent to Indian Rupees 1686.62 lakhs was carried out at the said four border haats in the five year period ending 2015-16.

There are no border haats in operation along the Bhutan and Myanmar borders.

(c) & (d): In addition to the four functional border haats, Government of India and Government of the People's Republic of Bangladesh have approved six more border haats—two in Tripura at Palbasti and Kamalpur and four in Meghalaya at Bholaganj, Nalikata, Shibbari and Ryngku.

Government of India has also executed a Memorandum of Understanding (MoU) with Government of the Republic of Union of Myanmar on establishment of border haats along their border.

The border haats aim at promoting the wellbeing of the people dwelling in remote areas across the borders of two countries, by establishing traditional system of marketing the local produce through local markets.

As per UN COMTRADE data for year 2015, India's share in global export of oilmeal products is 2.79%.

(b & c): Yes, Madam. The major reason for decline in export of oilmeals is lesser availability of oilseeds for crushing and continuous disparity between domestic and international prices. Production of Oilmeals is directly linked to domestic production of Oilseeds. Moreover, due to deficient rainfall in two successive years i.e. 2014 and 2015 and other natural calamities like hailstorm and unseasonal rain, the production of various commodities including oilseeds have declined in the country.

(d): Encouraging exports of agricultural products, including oilmeal and oilmeal Products, is a continuous process. The Department of Commerce provides 5% reward rate under Merchandise Exports from India Scheme(MEIS) for export of oilmeal products. The department also provides assistance to exporters of oilseeds & oilmeals through its schemes viz. Market Development Assistance(MDA) & Market Access Initiative(MAI) etc.

- (a) No, Madam.
- (b) Does not arise.
- (c) In the year 2014-15 the marine product exports attained highest growth however, the exports declined in the year 2015-16.
- (d) The marine product exports achieved an all-time record figure of 1.05 million tons valued at Rs. 33,442 Crore (US\$ 5.5billion) in 2014-15. During 2015-16, the exports in quantitative terms were 0.95 million tons valued at Rs. 30,420 Crore (US \$ 4.7 billion). Nevertheless, the exports have picked up during the current financial year and as of September, 2016 there is an increase of 2 % in quantity and 15% in value.

MPEDA is operating financial assistance schemes to fishermen to improve the quality of fish landed such as installation of insulated fish hold in onboard fishing vessels, refrigerated fish hold, refrigerated sea water system, ice making machine, Geographic Positioning System (GPS), fish finder, radio telephone, Fiber Reinforced Plastic (FRP) sheathing on the deck, etc. MPEDA is also giving assistance for conversion of existing fishing vessels to Tuna Long Liner.

**EXPORT OF DEVICES**

Will the Minister of **COMMERCE & INDUSTRY** (वाणिज्य एवं उद्योग मंत्री) be pleased to state:

- (a) whether the shipments of devices like mobiles and computers have dipped for the second year in a row;

- (c) whether the Government has taken any steps to increase the export of such devices and if so, the details thereof?

**ANSWER**

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY  
(INDEPENDENT CHARGE)  
(SMT. NIRMALA SITHARAMAN)

- (a) & (b): India's global exports of mobile and like devices decreased from US\$ 244.49 Million in the financial year 2013-14 to US\$ 202.91 Million in the financial year 2014-15. It subsequently increased to US\$ 206.22 Million in the financial year 2015-16.

India's global exports of computers and like devices decreased from US\$ 2,997.72 Million in the financial year 2013-14 to US\$ 1,031.71 Million in the financial year 2014-15. It further decreased to US\$ 838.1 Million in the financial year 2015-16.

Economic slowdown in developed and emerging economies; depreciation of Euro, Rouble, Brazilian Real, and Yuan etc. against Rupee and increase in competition are major reasons for decline in exports.

Since share of computers, mobiles and the like devices is less than 0.4% of India's exports in the past 2 years, decline of export in these items does not have major impact on India's exports.

( c): The important steps taken by the Government to increase the export of such devices are as under :

- i) Enhancing export competitiveness through support under the Merchandise Exports from India Scheme.
- ii) Providing facility for duty free import of inputs and machinery required for export production.
- iii) Providing refund of duties paid on export products.
- iv) Deepening market access in select countries and promoting region specific exports by entering into free trade agreements.
- v) Reducing cost of capital through interest equalisation of 3% on all exports from the MSME sector and notified exports from other sectors under the Interest Equalisation Scheme on Pre and Post Shipment Rupee Export Credit.
- vi) Reducing transaction cost through reduction in number of mandatory documents required for exports and imports, facility of online filing of applications and introduction of 24x7 operations at 17 Sea ports and 18 airports.
- vii) Promoting access to new product markets/regions through Market Access Initiative and Market Development Assistance schemes.

| iii) E Spice Bazaar project  | - Rs.54.89 lakhs  |

(b) & (c): The total funds spent under the Export Development and Promotion of Spices scheme during 2015-16 was Rs.21.49 lakhs for inhouse Lab programme for exporting unit. No study as such has been conducted for assessing the outcome of the said scheme. However, regular review is undertaken for increasing its effectiveness.

(d): Spices Board has established a Spice Park at Guntur with common infrastructure facilities for processing and value addition for the benefit of chilli farmers, traders and exporters in the region. Spices Board has also established a state of art Quality Evaluation Laboratory at Guntur for testing the samples from farming community and exporters. Further, Several programmes for development and production of spices such as area expansion, Integrated Pest Management(IPM)/Integrated Nutrient Management (INM), Organic farming, creation of water resources, micro irrigation, post harvest management etc. are implemented through State Horticulture Mission under the Mission for Integrated Development of Horticulture (MIDH) of Government of India. (a) : The Trade Ministers of BRICS nations, in a Communique after the 6<sup>th</sup> meeting of the BRICS Trade Ministers held on 13 October, 2016 in New Delhi, endorsed the “*Framework for BRICS Single Window Cooperation*” and underlined the importance of closer cooperation among the BRICS countries in the development of their national single windows.

The Ministers also appreciated the work being carried out in the BRICS countries for development of national single windows. These would facilitate both exporters and importers, who would then need a single point interface for all their clearances.

(b) The BRICS Trade Ministers recognized that since the services sector is of interest for BRICS economies, it is important for the group to cooperate with the aim of promoting complementarities on services trade (which includes trade in IT services). The Ministers highlighted the importance of facilitating expansion of trade in services by addressing

existing barriers. The Ministers endorsed the “*Framework for Cooperation on Trade in Services*”.

(c) At the abovementioned event, the Trade Ministers reiterated the importance of strengthening intra-BRICS cooperation on E-commerce and appreciated the progress achieved since the adoption of the Framework for BRICS E-commerce Cooperation in 2015. - (a) Subsequent to the field verification visit to the rice mills in India in September, 2016 by its experts, the Chinese General Administration of Quality Supervision, Inspection and Quarantine (AQSIQ), informed that it has approved 14 of the 19 rice mills registered with the Ministry of Agriculture for export of rice to China.
- (b) India has consistently sought greater market access for India's exports to China especially in sectors such as Pharmaceuticals agriculture including non-basmati rice, selected fruits and vegetables, buffalo meat, IT services, etc.

The Commerce Secretary during her meeting/s with Chinese Vice-Minister MOFCOM, AQSIQ and the Ministry of Industry & Information Technology (MIIT), in Beijing in September, 2015, also raised the issue of market access for India's exports to China on items including non-basmati rice, pharmaceuticals, selected fruits and vegetables, buffalo meat, IT services, etc.

These issues were also taken up at Minister level with the Chinese counterparts from time to time. Recently, during the meeting with Chinese Vice-Minister of Ministry of Finance & Commerce (MOFCOM) in October, 2016 on the sidelines of the 6<sup>th</sup> BRICS Trade Ministers meeting in New Delhi, these issues were discussed.

and
- (f) whether the Government has increased the time limit for these SEZ developers for their projects and if so, the details thereof along with the reasons therefor?

ANSWER

वाणिज्य एवं उद्योग राज्य मंत्री (श्रीमती निर्मला सीतारमण) (स्वतंत्र प्रभार)

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY  
(INDEPENDENT CHARGE)  
(SMT. NIRMALA SITHARAMAN)

(a): The details of total exports from the Special Economic Zones (SEZs) situated in various States/UTs of the country during the last three years and the current year, year-wise are at **Annexure-I**.

(b) and (c) : There was a decline of around 7% in exports in 2014-15 when compared to exports during 2013-14. However, there has been a marginal increase of 0.77% in the exports during 2015-16 when compared to exports during 2014-15. Performance in respect of exports from SEZs has been better as compared to overall exports from the country. Exports have been affected adversely due to general decrease in demand from major export markets.

(d) and (e): The Board of Approval has approved 423 SEZs of which 328 SEZs have been notified and 206 SEZs are operational. The Board of Approval (BoA) in the last three years and the current year had approved cancellation/de-notification of 143

SEZs subject to refund of tax/duty benefits under the SEZ Act and Rules, if any, as the progress made by the Developers of said SEZs was not satisfactory.

(f): As per the Special Economic Zones Rules, 2006, the letter of approval granted to a Special Economic Zone (SEZ) developer is valid for a period of three years within which time effective steps are to be taken by the developer to implement the approved project. The Board of Approval may, on an application by the developer, extend the validity period of the letter of approval. During the last four years and current financial year, extension of time has been granted to 141 developers of SEZ across the country keeping in view of the progress made by them and due to delay in getting statutory clearances and construction related problems.

Will the Minister of **COMMERCE & INDUSTRY** (वाणिज्य एवं उद्योग मंत्री) be pleased to state:

- (a) whether India and the European Union have agreed to jointly monitor pharma units in the country;
- (b) if so, the details thereof;
- (c) whether India has emphasised on interaction to address cultural differences and misunderstanding as these were often causes for regulatory actions; and
- (d) if so, the details thereof?

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY  
(INDEPENDENT CHARGE)  
(SMT. NIRMALA SITHARAMAN)

(a & b) : CDSCO (Central Drugs Standard Control Organization), under the Ministry of Health and Family Welfare and European Union has no agreement to jointly monitor Pharma Unit in the Country. However, CDSCO is granting Written Confirmation certificate to Indian API (Active Pharmaceutical Ingredients) Manufacturer for export of API's to European Union countries. Further, CDSCO has signed MoU with UK, Medicines and Healthcare Products Regulatory Agency wherein, both Countries agreed to engage collaboratively as observers in Medical Product inspections conducted by both parties as mutually arranged.

(c & d) : For export of drugs, Indian Pharmaceutical companies are required to comply with the regulatory provisions of the importing country.

Regulatory actions are required to be taken in case of non-compliances, with the regulatory provisions and not on cultural differences and misunderstanding. However, with increased interaction among the regulators on regular basis, an environment of better understanding is created.

वाणिज्य एवं उद्योग राज्य मंत्री (श्रीमती निर्मला सीतारमण) (स्वतंत्र प्रभार)

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY  
(INDEPENDENT CHARGE)  
(SMT. NIRMALA SITHARAMAN)

(a) & (b) : Yes, Madam.

ITPO has organised and hosted a number of exhibitions and trade fairs in different countries. During 2015-16, ITPO organised 22 trade fairs and 16 trade fairs between April – November, 2016, at attached as Annex-I & II respectively.

(c) & (d) : ITPO has reported their keenness to participate in this Fair which is being organized by the Internacionales de la Moda, S.A. de C.V. Trade shows of IM-INTERMODA, Guadalajara, Mexico. The Theme of the Fair is "SHINE". India Trade Promotion Organisation (ITPO) and the Synthetic & Rayon Textiles Export Promotion Council (SRTEPC) plan to jointly organize India Pavilion in the event. The fair authority has allotted 300 sq. mtrs. for which the Synthetic & Rayon Textiles Export Promotion Council (SRTEPC) has already confirmed participation of 24 companies till date to the fair authority.

Under the focus LAC programme, the participation aims to provide support and business opportunities to Indian Companies, SMEs to showcase their products in promising Latin American Markets and project "Brand India" and "Make in India". IM-INTERMODA is a specialized exhibition that attracts more than 10,000 businessmen including top buyers from the world's leading apparel, textile buyers of fashion wear manufacturers and service providers.

India's participation will bring together Mexican and International companies, manufacturers, Importers and distributors. It is intended to publicize the Indian brand and expand business contacts in the highly potential Latin American Market.

(e) : The Mexican economy is strongly linked to those of its North American Free Trade Agreement (NAFTA) partners, especially the United States. A delegation led by Commerce Secretary has visited the Mexico City for participation in the 4<sup>th</sup> Bilateral High Level Meeting which was held in Mexico City on 13-14<sup>th</sup> July, 2016 to discuss the Trade and Investment issues with Mexican side.

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY  
(INDEPENDENT CHARGE)  
(SMT. NIRMALA SITHARAMAN)

- (a) to (e): A meeting was convened by Department of Commerce on 21<sup>st</sup> November, 2016 with Export Promotion Councils (EPCs) to assess the impact of demonetisation on the country's exports/exporters. A similar meeting was also convened by Ministry of Micro, Small & Medium Enterprises (MSME) to assess the impact of demonetization on 24<sup>th</sup> November, 2016. Suggestions were made by various EPC's including Council for Leather Exports (CLE) to increase the withdrawal limits.

All EPC's have been advised to go cashless in respect of their payments. The Government and the Reserve Bank of India are closely monitoring cash availability and appropriate decisions are being taken from time to time.

**DR. J. JAYAVARDHAN:**  
**SHRI V. ELUMALAI:**  
**DR. HEENA VIJAYKUMAR GAVIT:**  
**KUNWAR BHARATENDRA:**

Will the Minister of **COMMERCE & INDUSTRY** (वाणिज्य एवं उद्योग मंत्री) be pleased to state:

- (a) whether the Government proposes to roll out a web-based platform for Special Economic Zones (SEZs);
- (b) if so, the details and the status thereof along with its main objectives;
- (c) whether the Government has any plan to deal with the slowdown in investment in SEZs resulting from imposition of Minimum Alternate Tax and if so, the details thereof;
- (d) whether the excess capacity of SEZs is likely to be used to perform work for units in Domestic Tariff Area (DTA area outside SEZs) and if so, the details thereof; and
- (e) whether there is any proposal to allow exports from SEZs to DTAs at concessional rate and if so, the details and the status thereof?

**ANSWER**

वाणिज्य एवं उद्योग राज्य मंत्री (श्रीमती निर्मला सीतारमण) (स्वतंत्र प्रभार)

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY  
(INDEPENDENT CHARGE)  
(SMT. NIRMALA SITHARAMAN)

(a) and (b): In order to facilitate paperless transaction for movement of goods for imports and exports from SEZs, a web-based platform - SEZ Online system has already been implemented.

(c): The Special Economic Zones (SEZs) located in the country has seen a slowdown in terms of slower operationalisation of SEZs, increased number of applications for de-notification of SEZs, fewer number of application for setting up of new SEZ, etc. The slowdown is due to a number of reasons including difficult global financial situation, slowdown in exports, withdrawal of exemption from Minimum Alternate Tax (MAT) and Dividend Distribution Tax (DDT) provisions, uncertain fiscal regime for SEZs, etc. In order to boost investment in SEZs, review meetings with the Development Commissioners of SEZs are held regularly. Further, open house meetings with SEZ stakeholders, Road Shows have been organised in various places of the country to give wide publicity of SEZs.

(d) and (e): The various stakeholders of SEZs have represented in this regard. No decision has been taken in this regard.
