- (c) whether the Government would consider announcing special measures/benefits for improving the conditions of tea labourers of the country; and
- (d) if so, the details thereof and if not, the reasons therefor?

ANSWER

वाणिज्य एवं उद्योग मंत्रालय में राज्य मंत्री (श्री हरदीप सिंह पूरी)

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY (SHRI HARDEEP SINGH PURI)

(a) & (b): While the tea Industry is sensitive to fluctuation in the cost of various inputs like raw materials, wages and the demand-supply scenario, tea production in India is showing a stable trend. It increased from 1325 M.Kgs. in 2017-18 to 1360 M.Kgs. in 2019-20.

The production cycle of tea was affected during the initial period of the Covid related lockdown, particularly in the months of March - April, 2020. However, the production of tea has improved from May, 2020 onwards after the plantation sector resumed operations. This disruption resulted in decline in production to the tune of 105.21 M.Kgs. during April to December 2020 as compared to corresponding period of previous year. During the current year 2020-21 (April 20-January 21), the auction price of tea has increased by Rs.59.73 per Kg over the corresponding period of previous year, which should ensure better financial outcomes for the tea sector and help it to recuperate.

The Government, through the Tea Board, is implementing the "Tea Development & Promotion Scheme" for providing financial assistance to the tea industry in the country. The scheme focuses on increasing productivity, quality, value addition, orthodox tea production, and formation of Self Help Groups and Farmer Producer Organisations. The Tea Board provided financial assistance of Rs.384.85 cr. to the tea industry from 2017-18 till January 2021.

(c) & (d): The working conditions of tea garden workers are governed under the Plantation Labour Act (PLA), 1951 and enforced by the state government concerned. The workers and their dependents are provided basic welfare services and amenities e.g. housing, medical and primary education, water supply, sanitation etc. under the Plantation Labour Act, 1951. Apart from PLA, workers of the tea industry are also covered by various industrial and social security legislations such as Workmen's Compensation Act, Payment of Gratuity Act, Provident Fund & Miscellaneous Provisions Act, Payment of Bonus Act, Maternity Benefit Act, Payment of Wages Act, Equal Remuneration Act, Industrial Disputes Act, Factories Act and Industrial Employment (Standing Order) Act, 1946.

The Tea Board also extends certain welfare measures to tea workers and their wards/dependents, which are supplemental in nature. Tea Board has disbursed an amount of Rs.17.72 Crore during the period from 2017-18 till January 2021 for the benefit of Tea garden workers.

In additional the Central Government has announced a scheme in the Union Budget 2021-22 for the welfare of Tea workers, especially women and their children, in Assam and West Bengal with a total outlay of Rs.1,000 Crore.

Will the Minister of **COMMERCE & INDUSTRY** (वाणिज्य एवं उद्योग मंत्री) be pleased to state:

- (a) the view of the Government regarding the export of marine products from the country during COVID-19 pandemic; and
- (b) the details of the impact of COVID-19 on marine exports from January, 2020 to January 2021, month-wise?

ANSWER

वाणिज्य एवं उद्योग मंत्रालय में राज्य मंत्री (श्री हरदीप सिंह पूरी)

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY (SHRI HARDEEP SINGH PURI)

(a) During the COVID-19 pandemic, demand for marine products in the global market including by the U.S., China, Japan, EU, etc., has been adversely affected, due to the frequent lock-downs effected in major markets and closure of restaurants, supermarkets, institutional catering, etc. The domestic production and export were also affected due to loss of fishing days, skipping of crops by aqua-farmers and logistics issues including shortage of reefer containers, diminished air-cargo connectivity, nonavailability of courier service and delay in documentation and clearance in importing countries.

The Marine Products Export Development Authority (MPEDA) has taken a series of steps like digitization of export certificates, release of a COVID-19 protocol booklet and a video to sensitize the marine industry, holding online buyer-seller meets, bilateral engagements in major markets like U.S., EU, China, etc., for increasing marine exports from the country. The Dept. of Fisheries have also rolled out the flagship programme of Pradhan Mantri Matsya Sampada Yojana (PMMSY), targeting creation of critical infrastructure for fishery production with focus on export-oriented species.

b) Month-wise exports of marine products from January 2020 to January 2021 are given below:

वाणिज्य एवं उद्योग मंत्रालय में राज्य मंत्री (श्री हरदीप सिंह पुरी)

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY (SHRI HARDEEP SINGH PURI)

(a) to (d): The Government of India had notified certain changes in the import policy of peas and pulses in light of various developments in the sector. These Notifications were challenged in various High Courts. The Government contested the cases before various High Courts and in order to obtain a common judgment, sought transfer of all cases filed before the various High Courts to the Supreme Court. The Hon'ble Supreme Court in its Judgment dated 26th August, 2020 upheld the notifications and the trade notices and rejected the challenge made by the importers and further directed that the imports, if any, made relying on interim order(s) would be held to be contrary to the notifications.

The disposal of peas and pulses stocked at various sea ports which have been imported by private importers in violation of the Foreign Trade Policy and notifications issued there under, will be in accordance with and subject to the Judgment of the Hon'ble Supreme Court and the relevant provisions of law.

- (e) if so, the reasons therefor?

ANSWER

वाणिज्य एवं उद्योग मंत्री (श्री पीयूष गोयल) THE MINISTER OF COMMERCE AND INDUSTRY (SHRI PIYUSH GOYAL)

(a) to (e): A Statement is laid on the Table of the House.

STATEMENT REFERRED TO IN REPLY TO PARTS (a) to (e) OF LOK SABHA STARRED QUESTION NO. 138 FOR ANSWER ON 10th FEBRUARY, 2021 REGARDING "TRADE DEFICIT".

(a): India's overall (merchandise and services) trade deficit decreased by 25.05% in 2019-20 over 2018-19. During April-November, 2020-21, India's overall (merchandise and services) exports were US\$ 304.53 billion, higher than overall imports of US\$ 293.56 billion, resulting in a trade surplus of US\$ 10.97 billion. Despite the Covid pandemic situation India's merchandise exports in December 2020 were US\$ 27.15 billion as compared to US\$ 27.11 billion in December 2019, showing a positive growth of 0.14%, due to several measures taken by the Government. Trade deficit depends upon relative fluctuations in the import and export of different commodities and services due to global and domestic factors such as demand and supply in domestic and international markets, currency fluctuations, international prices, etc.

The Government has taken the following key steps to promote exports:

- 1) Foreign Trade Policy (2015-20) extended by one year i.e. upto 31-3-2021 due to the COVID-19 pandemic situation.
- 2) Interest Equalization Scheme on pre and post shipment rupee export credit has also been extended by one year i.e. upto 31-3-2021.
- 3) A new Scheme, Remission of Duties and Taxes on Exported Products (RoDTEP), has been launched with effect from 01.01.2021.
- 4) Common Digital Platform for Certificate of Origin has been launched to facilitate trade and increase FTA utilization by exporters.
- 5) A comprehensive "Agriculture Export Policy" to provide an impetus to agricultural exports related to agriculture, horticulture, animal husbandry, fisheries and food processing sectors, is under implementation.
- 6) Promoting and diversifying services exports by pursuing specific action plans for the12 Champion Services Sectors.
- 7) Promoting districts as export hubs by identifying products with export potential in each district, addressing bottlenecks for exporting these products and supporting local exporters/manufacturers to generate employment in the district.
- 8) Active role of Indian missions abroad towards promoting India's trade, tourism, technology and investment goals has been enhanced.

- 9) Package announced in light of the covid pandemic to support domestic industry through various banking and financial sector relief measures, especially for MSMEs, which constitute a major share in exports.
- **(b):** The main export sectors that showed downward trend during recent years are Gems and Jewellery, Leather and Leather Manufactures, Man-Made Yarn/Fabrics/Madeups etc, Readymade Garments of all Textiles, Marine Products and Cotton Yarn/Fabrics/Madeups/ Handloom Products etc. In spite of the pandemic situation there are certain sectors such as Drugs and Pharmaceuticals, Spices, Iron ore, Rice and Other cereals which have shown positive trend in exports.
- (c): 'Make in India' initiative was launched on 25th September, 2014 with the objective of facilitating investment, fostering innovation, building best in class manufacturing infrastructure, making it easy to do business and enhancing skill development. The initiative was further aimed at creating a conducive environment for investment, modern and efficient infrastructure, opening up new sectors for foreign investment and forging a partnership between government and industry. Healthy FDI inflows and growth in emerging sectors like electronics are reflective of positive outcomes of the initiative.
- (d) & (e): Due to several policy measures taken by the Government to boost domestic manufactures and other domestic and global factors, India's merchandise imports have decreased by 7.64% to US\$ 474.7 billion in 2019-20 from USD 514.1 billion in 2018-19. During the current year (April-December), due to COVID-19 pandemic, India's merchandise imports have decreased by 28.2% to US\$ 261.5 billion from US\$ 364.2 billion during the same period of the last year.
