Sector-Wise details, including automobiles, pharmaceuticals, textiles, petroleum and engineering goods during last three years are at **Annexure**.

(b) to (f) The major initiatives taken by government for enhancing exports in the country including the State of Maharashtra are as below:

(i) The Export Infrastructure Division of Department of Commerce, Government of India is implementing a scheme namely 'Trade Infrastructure for Export Scheme (TIES)', a Central Sector Scheme w.e.f. F.Y. 2017-18, with the objective of assisting Central and State Government agencies in the creation of appropriate infrastructure for growth of exports. Under the scheme, financial assistance in the form of grant-in-aid has been provided to Maharashtra for establishing the facility for analysis of origin and authenticity of various food products in Mumbai.

(ii) The Districts as Export Hubs (DEH) initiative under Directorate General of Foreign Trade (DGFT), an attached office under Department of Commerce, Government of India, seeks to harness the export potential and unique identity of each district by promoting exports of identified goods and services, including Geographical Indication (GI) products, agricultural clusters, and toy clusters. Institutional mechanisms in the form of State Export Promotion Committees (SEPCs) at the State/UT level and District Export Promotion Committees (DEPCs) at the district level have been constituted to facilitate export promotion and address bottlenecks affecting export growth.

(iii) The Export Promotion Mission (EPM), approved by the Union Cabinet with DGFT as implementing agency will provide a comprehensive, flexible, and digitally driven framework for export promotion, with a total outlay of Rs.25,060 crore for FY 2025–26 to FY 2030–31. The Mission proposes to address key bottlenecks faced by Indian exporters, especially MSMEs. It aims to strengthen access to affordable and inclusive trade finance, addressing non-financial barriers that enhance export quality and compliance with global standards, as well as provide logistics support and institutional export support. EPM marks a strategic shift from multiple fragmented schemes to a single, outcome-based, and adaptive mechanism designed to directly address structural challenges, including limited and expensive trade finance access and the high cost of compliance with international export standards. The Mission will operate through two integrated sub-schemes:

1. NIRYAT PROTSAHAN – focuses on improving access to affordable trade finance for MSMEs through a range of instruments such as interest subvention, export factoring, collateral guarantees, credit cards for e-commerce exporters, and credit enhancement support for diversification into new markets.

2. NIRYAT DISHA – focuses on non-financial enablers that enhance market readiness and competitiveness, including export quality and compliance support, assistance for international branding, packaging, and participation in trade fairs, export warehousing and logistics, inland transport reimbursements, and trade intelligence and capacity-building initiatives.
